

Construction Arbitration Representative Matters:

- Currently serving as lead counsel to a governmental department of transportation on approximately \$200 million in claims on a \$500 million design-build project
- Represented a contractor in an arbitration under ICSID rules regarding the expropriation of an investment in six hydroelectric plants, representation of a contractor against the Republic of Peru.
- Successfully defended a protest and emergency injunction action against Orlando International Airport's DBOM procurement of an approximate \$220 million Automated People Mover system project
- Represented a contractor in an ICC arbitration representing a leading port and cargo provider against a Mexican contractor dealing with the breach of contract in a major Mexican southern port
- Successfully defended a protest and emergency injunction action against Osceola County Expressway Authority on its design-build highway and bridging system project (approximately \$78 million), a critical link to its master plan highway network
- Represented a multinational integrated project developer against the Republic of Panama in two separate Spanish-language ICC arbitrations involving over \$100 million and the construction and financing of a series of healthcare public works projects in Panama
- Represent a contractor in an ICSID arbitration against Honduras over the failure of the state to provide adequate protection of a toll road
- Developed a Dispute Review Board process for Orlando International Airport CIP projects, including a "Super-DRB" for its multibillion-dollar terminal program, creating a mechanism for early resolution of disputes, saving many millions in claims, and lowering incidence of suit to a rare occurrence
- Represented a Latin American country in an UNCITRAL arbitration against claims by an investor in the construction of a mass transit system in Asunción
- Achieved a favorable, global resolution prior to hearing when representing the Program Manager for Miami International Airport's South Terminal Program, which spawned over \$125 million in impact and delay claims
- Handled all claims and termination proceedings involving an ENR Top 10 Contractor on a \$600-plus million CM@risk contract, and successfully negotiated a successor contract to take over, with no impact on schedule or ensuing claims
- Served as eminent domain and trial counsel to the Orlando-Orange County Expressway Authority on the Western Beltway expansion project, a \$500-plus million dollar highway system, handling multiple evidentiary order of take hearings, mediations and dispute resolution proceedings, including a two-week jury trial in a damages claim arising from an elevated section of highway that bisected a luxury residential development

- Served as lead counsel on an estimated \$200 million design-build-operate-maintain (DBOM) project employing first-of-its-kind technology in the U.S., for an Independent Carrier Baggage Handling System for an international airport, overcoming several televised procurement challenges, an investigation into bidder collusion, ultimately achieving a successful contract well under budget
- Served as litigation counsel for foundation subcontractor pursuing claims on I-95 bridge project in Providence, Rhode Island
